OFFENSIF

A Passion for Sport, A Passion for Fragrance

A NEW FRAGRANCE FROM FRAGRANCE SPORT BRINGS THE WORLDS OF FASHION AND FOOTBALL CLOSER THAN EVER BEFORE.

A fine fragrance inspired by a passion for sport and football in particular for a man determined to make his mark on the world: Offensif. With a name that embodies the attack strategies in football and other sports as well as in modern society to achieve success and excellence, this fragrance has been created by one of Grasse's most renowned noses to meet the challenge of a high-class, 100% French creation.

The two founding partners of Fragrance Sport set this challenge to draw together the worlds of football and fashion and the result is a luxurious and exceptional perfume for the man of today.

A daring blend of fruit and spices gives the composition a manly but never aggressive imprint. Rare flowers and noble substances contribute to this timeless, invigorating and ethereal perfume which exercises an absolute desire to please. The top notes are fresh, infused with orange, mandarin and bergamot. The heart reveals its warmth with nutmeg, water flowers and an ozone note

to invigorate and surprise, whilst the drydown adds that hint of sensuality and seduction giving extra virility to the fragrance: musk, amber and teak wood. It is not only the fragrance that is innovative and exceptional, but also the bottle. This high-tech design, patented in France, awakens passions and combines exclusive materials with an original technique. Passions are irresistible... just like Offensif.
